Basel, 15th of December 1993

Dear Tan Sri Datuk Patinggi Abdul Taib Mahmud

I have the vision to work together with you and the Sarawak Government, if you are also interested to help protect some of the most valuable resources of the country for the benefit of the local populations. I am ready to participate personally in projects, which improve the availability of basic food supply for the Penan, and to easy them to adjust to the quick changes they experience.

With your positive reply, I would look for financial support from international bodies.

Looking forwards to your reply

Sincerely yours,

**BRUNO MANSER**
